ENGINEERING

CERTIFICATE OF TRAINING

Stuvex International NV, specialized in designing, developing, installing and maintaining explosion protection systems hereby declares that the following person has been trained and has demonstrated to have acquired the competences required to execute mechanical and electrical maintenance actions on Stuvex International NV explosion protection equipment installed in explosive atmospheres.

Certificate of training relative to the general use and daily inspections on dust explosion isolation systems:

- **Fast Shutting Gate Valve (Rico), controlled by a Stuvex control unit**
- **Ventex (Rico)**

Ahmad Sharifa

Cargill R&D Centre Europe BVBA

This training covered following modules

General aspects concerning the functionality of Rico Ventex, Fast Shutting Gate Valves and the Stuvex Control Unit.

Remark: This training does NOT give the customer (Cargill) the authority to maintain or refurbish the systems annually.

Stuvex International is a certified Rico service partner

Date of delivery of certificate: 3 August 2022

Date of expiry of certificate: N/A
